

About

The tokens provided here are intended to be used for the Penn State IEEE AI Discord Clone Workshop. We ask that you refrain from using them for other purposes.

IEEE Provided Tokens

Name	Token
openAI_token	"sk-proj-LSl-oIOmRZ0hIp4xeP_RibrDSC3264myiHoHdXkxr8mCqmgK0aywqqqhjjKwxFNGgdQBySqmeMT3B1bkFJfi-c5Kh2iBdWimVHZE47XRuWCXTjqvh1WKiGS6fvriU6x6aV-b8nKLpR6C7wTOH30hrfI94nkA"
elevenLabs_token	"sk_9d1c0e3588e3e8abfa24588a620c3a863c7a5815f7fdc617"

Usage

Create a file named config.py in the downloaded [repository](#). Then, following standard Python syntax, create variables corresponding to the token name and value. For example,

```
openAI_token = "a_madeup_token_abc123"
```

Important

There are limited credits corresponding to each token. Please do not waste them.

Do not share these tokens online (e.g. posting to GitHub). They will be automatically reset or stolen and abused.
